

What does 2000 flooded homes look like on a map

Published: 12-28-2017 Revised: 3-21-2019

Imagine if all 14,000 homes were given a stick pin for the map, you wouldn't be able to see the map at all.

We have collected and taken pictures of our rebuilding process.

We hope you have done the same.

It's important to document everything after a disaster.

Your home was flooded, garage, shop, storage room.

You lost everything you could think of.

Now you are rebuilding, let's show how good you did the rebuilding phase by sharing pictures of what you did behind the drywall and paint.

So many flipped homes are expected to show that mold in the coming years we want to show buyers that are moving into the area that we do know how to recover correctly from flood damage.

It's more than just cleaning up and you know it.

Share your experiences with pictures.

I know I will be sharing our rebuild every day ~~live online~~ starting Feb. 28, 2018.

That's if everything goes to plan.
