If you need help with supporting documents and references for your comment please post what you need. Most all items in APA 12 have been researched by me over the last 18 months and I have hundreds of support documents to provide you all with evidence you may need.

This has to be more than a group effort. The APA will increase the overall losses to two different groups totaling over \$124 million in flood recovery funds not reaching the homeowners but instead it will be added to the states agenda and the states projects.

No action on your part for public comments that will open this week will end recovery efforts to thousands of Louisiana Families that really need your voice so they can be heard loud and clear.

How to submit your comments is printed on the last page of the Action Plan Amendment 12.
